

LYRICS	
Original Lyrics (in Czech language)	English Translation
<p>Ubývá míst kam chodívala pro vodu  Má starodávná milá, starodávná milá  Kde laně tišily žízen, kde žila rosnička  A poutníci skláněli se nad hladinu  Aby se napili z dlaní  Ubývá míst kam chodívala pro vodu,  Voda si na to vzpomíná, voda je krásná.  Voda má voda má voda má</p>	<p>Those slopes where she would go to get water  My old love, my old love  Where deer quenched their thirst, where the tree frog lived  And pilgrims bent over the surface  To drink from their hands  Those slopes where she would go to get water  Water does not mind, Water is beautiful  Water has, Water has, Water has</p>
<p>Voda má voda má voda má rozpuštěné vlasy...  Voda má voda má voda má rozpuštěné vlasy...  Voda má voda má voda má rozpuštěné vlasy...  Voda má voda má voda má...</p>	<p>Water has, Water has, Water has flowing hair...  Water has, Water has, Water has flowing hair...  Water has, Water has, Water has flowing hair...  Water has, Water has, Water has...</p>
<p>Chraňte tu vodu a nedejte oslepnout prastaré  Zrcadlo hvězd</p>	<p>Protect the water and do not go blind from this ancient  Mirror of stars</p>
<p>A přiveďte k té vodě koníčka, přiveďte koně  Vraného jak tma, voda je smutná  Voda má voda má...</p>	<p>Lead the horse to the water, lead the horse to her  Black as darkness, water is sad  Water has, Water has...</p>
<p>Voda má voda má voda má rozčuchané vlasy...  Voda má voda má voda má rozčuchané vlasy...  Voda má voda má voda má rozčuchané vlasy...  Voda má voda má voda má...</p>	<p>Water has, Water has, Water has her hair disheveled...  Water has, Water has, Water has her hair disheveled...  Water has, Water has, Water has her hair disheveled...  Water has, Water has, Water has...</p>
<p>A kdo se na samé dno potopí?  Kdo se potopí ke hvězdám pro prstýnek?</p>	<p>And who will dive to the lowest depths?  Who dives to the stars for a ring?</p>

<p>Ubývá míst kam chodívala pro vodu  Voda je zarmoucená vdova  Voda má voda má voda má</p>	<p>Those slopes where she would go to get water  Water is a grieving widow  Water has, Water has, Water has</p>
<p>Voda má voda má popelem posypané vlasy...  Voda má voda má popelem posypané vlasy...  Voda má voda má popelem posypané vlasy...  Voda má voda má voda má</p>	<p>Water has, Water has, Water has her hair sprinkled with ashes...  Water has, Water has, Water has her hair sprinkled with ashes...  Water has, Water has, Water has her hair sprinkled with ashes...  Water has, Water has, Water has...</p>
<p>Voda si na nás stýská</p>	<p>Water cares for us</p>
<p>Voda má voda má voda má rozpuštěné vlasy...  Voda má voda má voda má rozpuštěné vlasy...  Voda má voda má voda má rozpuštěné vlasy...  Voda má voda má voda má</p>	<p>Water has, Water has, Water has flowing hair...  Water has, Water has, Water has flowing hair...  Water has, Water has, Water has flowing hair...  Water has, Water has, Water has...</p>
