

LYRICS

Original Lyrics (in Turkish language)	English Translation
<p>Ne zaferinden bahsediyorsun?            Sen savaşla aşkı karıştırmışsın            Çık o karanlıktan, siperinden            Sen beni hep düşman varsaymışsın</p>	<p>Which victory are you talking about?            You mixed up the love and the war            Get out of that darkness, of your sphere            You always considered me an enemy</p>
<p>Sen rekabet iste            Ben buna bayılıyorum            Kadının gücünü hafife alma            Erkeklik gururun vardır sanırım            Perişan olup da zor durumda kalma</p>	<p>Just ask me for competition            I like that            Don't underestimate the power of a woman            I guess you have the pride of a man            Don't be miserable, don't be in a hard situation</p>
<p>İstersen bana "ukala mukala" de            El üstünde tutulmazsam, hep el kalırım            Prensesler gibiydim ben baba evinde            Özgürlüğüme gölgeyi hakaret sayarım</p>	<p>If you want, call me "arrogant"            If I'm not cherished I'll be always foreign            I was like a princess in my dad's house            A shadow on my freedom is an insult for me</p>

<p>İstersen bana "ukala mukala" de....</p>	<p>If you want, call me "arrogant"...</p>
<p>Prensesler gibiydim ben baba evinde...</p>	<p>I was like a princess in my dad's house...</p>

İstersen bana "ukala mukala" de  
El üstünde tutulmazsam, hep el kalırım  
Prensesler gibiydim ben baba evinde  
Özgürlüğüme gölgeyi hakaret sayarım

If you want, call me "arrogant"  
If I'm not cherished I'll be always foreign  
I was like a princess in my dad's house  
A shadow on my freedom is an insult for me
